Big Data Tools

WORK EXPERIENCE

PERSONIFY, Bengaluru, India

Intern Sep 2022 - Nov 2022

- Developed a Python-based chatbot using Flask and NLTK for website integration.
- Designed conversational flow with machine learning for personalized responses.
- Deployed and maintained the chatbot, ensuring seamless integration and continuous improvement through user feedback analysis.

CODSOFT, Bengaluru, India

Intern July 2024 - Aug 2024

- Built a To-Do List application for task management.
- Designed a basic calculator for arithmetic operations.
- Developed a password generator for strong, random passwords.
- Implemented a Rock-Paper-Scissors game with score tracking.
- Created a Contact Book for managing contact details.

PROJECTS

Trade Alert Pro Bengaluru, India

React.js | Node.js | Web Socket Nov 2023 - Jan 2024

- Led the development of Trade Alert Pro using React.js and Node.js, revolutionizing trader and investor interactions with financial data.
- Managed the project from requirements analysis to deployment, focusing on intuitive UI, real-time data processing, and responsive functionality.
- Collaborated with stakeholders for iterative feedback, implemented SSL/TLS encryption, and ensured a robust, scalable application for dynamic financial markets.

Personal Portfolio July-2024

HTML | CSS | Java Script

- Created a personal portfolio using HTML, CSS, and JavaScript.
- Designed a clean, responsive user interface.
- Implemented interactive elements for enhanced UX.
